| Director's Note

As I reflect on our journey at Param, all I can see is change. Change in ideals, change in ideas, change in dreams and change in the way we think and perceive. There was a time when I saw the Param science team as a fledgling creation of my own - a baby of sorts that I nurtured and watched over. Yet, as time has passed and our collective experiences have deepened, I've come to realise that Param, in fact, has been more of a nurturing mother to me. It's a humbling realisation that I have learned and gained far more from Param than I could ever have imparted. This shift in perception underscores a fundamental truth - that we are merely transient guardians of a vision far grander and more enduring than ourselves. A dream about changing the world to a world that doesn't need a Param. A world that inherently lives science and breathes innovation because every single individual is an innovator - a flag bearer of change in their own right.

At the heart of Param is the Passion that fuels this change. It is the lifeblood that courses through everything we do. We are not just scientists but in fact storytellers and artists committed to making science not a subject to be learned but a lifestyle to be embraced and lived. We aim to foster an ecosystem of science where innovation is as natural as breathing, where creativity knows no bounds, and where every idea is valued.

We pride ourselves on being daringly stupid, unapologetically fun, and unabashedly crazy. These are not weaknesses; they are our strengths. They are the qualities that make us Param.

As I sign off, I am reminded of a saying that has become a mantra within our team: "Take care of Param, and Param will take care of you." These words are more than a sentiment; they are a promise - a promise that as we nurture this incredible venture, it will, in turn, nurture us, our community, and the world.

Together, we are Param. Together, we are the change.

Inavamsi Enaganti
Director

What we do

We aspire to become an ecosystem that encourages science as a way of life and enabling innovation as a way of thought in young minds.

We will make science a lifestyle!

Interactive and Immersive Exhibits

Science Online (Metaverse)

Events (Hackathons & Olympiads)

Science Magazines

Mobile Science Centres

Interactive Online Courses

Skill Training & Workshops

Think-tanks, Meetups, Innovation exchanges

Incubation & innovation Lab

Construction

Collaborate and innovate impact together

Our science centre has achieved **90% completion** of its construction. The impressive **hyperbolic paraboloid shell structure**, measuring 75m x 75m and only 50mm thick, is also nearing its completion. Parallely, the essential **Mechanical, Electrical, and Plumbing works** are **progressing smoothly**, ensuring the centre's functionality matches its innovative design. This project is **aimed to open in November 2024**.

Timeline

Workshop construction commenced, marking a new phase in our hands-on science journey

January

February

Hosted **Samyog**, an Art-Science Gallery, and expanded **Param Science Magazine** to 44 Government Libraries

Transitioned to a larger office, achieved the **65% construction milestone**, launched **Rangolify**, and gathered insights by visiting notable science museums

March

April

PARSEC recognized internationally by **IFIA - The International Federation of Inventors' Association**

Intensive preparations for **ParamCon** commenced. Interaction with **Manjul Bhargava and Assam's Chief Minister**

May

June

ParamCON buzz - Hosted and celebrated the landmark event throughout a dedicated month

Our Year in Review

Hosted **AI talks for youth**,
Expanded Office, **PARSEC team**
grew to 35, and a memorable visit
to Singapore

July

August

Welcomed a wave of
experienced professionals
into the **Param family**

PARSEC celebrated as "the fun
Science people," showcased at **RV**
fest, BNMIT fest, and various
street events

September

October

Celebrated unity and tradition with
Navratri colours and **Office**
Ayudha Pooja

Hosted the 2nd **Annual Reboot**
Day, a cornerstone event for
rejuvenation and innovation

November

December

Initiated preparations to launch the
In-City Gallery

|Samyog

Samyog – Art Science Gallery, held on **February 4th, 2023**, at Bengaluru's **YuvaPatha**, showcased **AI-generated artworks** in a unique fusion of **art and science**. This **donor gallery** event not only captivated the audience but also effectively contributed to the centre's **fundraising efforts**. The success of Samyog highlighted the harmonious relationship between **technology and artistic expression**, demonstrating the growing impact of **AI** in the art world and its potential for innovative **fundraising initiatives**.

I Manifesto

Make Science a Lifestyle: We don't just teach science, we live it. Science is not a subject, it is the glorious pursuit of truth in the grand challenge of understanding reality.

Seek Truth: In every endeavour, idea, and creation, we uphold the highest standards of scientific rigour. The truth is non-negotiable.

Breathe the 3 C's: Harness the 3 Cs in all we create and do - Inspire Creativity, Nurture Curiosity, and Build Confidence.

Tell Great Stories: We're not just educators or scientists; we're artists and storytellers. Through emotional experiences, we're here to make everyone fall in love with science.

Craft Unforgettable Experiences: Blend beauty, simplicity, and awe to make each interaction memorable.

Constantly Collaborate: We don't work in isolation; we catalyse innovation through partnership. We actively seek and forge alliances with like-minded individuals, organisations, and agencies to build an active ecosystem.

Innovation is Our Only Goal: The recipe is simple - Planning(Strategy), Skills, Ideas/Insights, Collaboration and a Feedback Loop.

Prioritise Quality: Build for longevity, flexibility, and ensure meticulous attention to detail in everything we do.

Be Accountable: The price of greatness is responsibility.

Be Frugal: We can do much more with money saved. Watch the small expenses as a small leak can sink a great ship.

Follow Your Passion and Imagination: Your boundaries are only as limited as your imagination and passion.

Be Crazy, Break The Process, Just Get It Done: We value audacious action over cautious inaction. If the box doesn't fit, shatter it. Our goal is making things happen, no matter the obstacles.

Embrace Change: The only constant is change.

Testimonials

Sharing the impact of our experiences

I did not expect anything i just saw the ad on my social media and I wanted to try on. **It was amazing** and **exceeded all my expectation**. Thank you!

I love PARAM way too much to leave Bangalore!

As it's an **amazing experience** to visit it for experiencing science to students.

I expected something more small key and maybe a little boring too, but it was **wayyyyyyyy more interesting and cool**.

I expected a boring fair with scientists and structures of atoms. This was **beyond my mental capacity** of imagining what a science fair could be.

The event was a **good amalgamation of fun science and maths**. It would be great if Param could showcase outer space in a creative way.

Param **changed my perspective on science** in 30 minutes which my science loving wife of 20 years could not.

It was **soo good**, it is interesting as we have expected, I loved this so much. **Feeling good, creative minding**, making us to think more and gather a lot of ideas.

I came here no expectations. My kid and his friends **enjoyed a lot** and were kept occupied with the puzzles and games.

Expecting **wonders of science** and got that experience.

It was more awesome. **Param Innovation was mast!**

Came with no expectation and felt **everything is awesome.**

My expectations were like "The exhibits might be too complicated for me to understand" but in reality, all the **exhibits were really easy to understand.** Thank you for all the **beautiful and innovative exhibits.**

In the future, Param has the potential to **compete with any leading museum** in the world.

Join Forces

Collaborate and Innovate An Impact Together

Forge New Frontiers as Partners & Collaborators

At ParSEC, we're not just talking about change, we're **making it happen**. If your organization is ready to lead in science and innovation, let's join forces and **create an impact together**. Connect with us at collaboration@paraminnovation.org.

Advance Your Career with Purpose

Seize the chance to work in an environment where your talents as designers, artists, developers, and more aren't just **utilized—they're celebrated**. Join ParSEC's dynamic team and be at the forefront of **revolutionizing science engagement**.

Artists

Calling all artists! Unleash your talent and be part of a community that appreciates and celebrates your unique creations

Institutions

Institutions, be part of a dynamic alliance. Join forces with us to empower the next generation of leaders and thinkers

Startups

Fuel your startup journey! Join our community of disruptors and build the future of business

Partner with Us

Transform Passion into Impact with PARSEC!

Innovators

Transform your ideas into reality! Join our innovation community today and bring your vision to life

Shape Tomorrow with Volunteering & Interning: Your skills and enthusiasm can drive real-world advancements in science.

Embrace the opportunity to grow, learn, and contribute at **PARSEC**. Join us in diverse roles that offer both on-site and remote possibilities.

Ready to Make a Mark? Contact

recruitment@paraminnovation.org today. Let's collaborate to turn visionary ideas into reality. At **PARSEC**, your journey in transforming passion into groundbreaking impact begins now.

Vendors

Grow your business with us! Become a trusted vendor and reach a broader audience

Looking Forward

A glimpse into our next chapter

As we turn the page into another year, **Param Science Experience Centre** stands at the forefront of an exciting journey fueled by innovation and a deep love for science. Reflecting on our remarkable past year, we've witnessed an inspiring tapestry of curiosity, wonder, and learning.

Our upcoming endeavours, including the **InCity Gallery at Jayanagar** and **unique campaigns throughout Bangalore**, promise to weave science into the fabric of daily life, making it a living, breathing entity in our city. In the spirit of discovery, we are thrilled to unveil groundbreaking exhibits and interactive experiences that will transport you from the intricate beauty of human cells to the enigmatic depths of the cosmos. Our commitment is not just to entertain but to **challenge, inspire, and spark a relentless curiosity** in every visitor. As we continue this incredible voyage, we remain dedicated to expanding our impact, reaching new audiences, and fostering an inclusive environment where science is not just learned but passionately loved.

Join us in embracing a future brimming with possibilities, where every moment at Param is an opportunity to ignite the innovator within. Here's to a year of boundless exploration and discovery - **the best is yet to come!**
